

# **VENUE SPECS | production packet**

Second Level Studio is a flex-space venue that hosts a calendar of gatherings, workshops, meetings and presentations.

The studio is available as a private rental space for performances, filming, streaming, rehearsals and more.

The studio invites exploration, collaboration and expansion. Creative activities including self-improvement practices, community engagement, business building, and artistic expression are welcome!

# production support

Our team of producers and project managers are available to support your endeavor, in advance or on-site.

If you are interested in presenting or co-producing a ticketed event (admission or donation-based), we consider every request.

Please contact us to discuss how we can assist with event planning, technical needs, bespoke projects and collaboration ideas.
